PROFESSIONAL SUMMARY

Frontend-focused Full-Stack Engineer with **3+ years of experience** designing and building modern, scalable, and high-performance web applications using **React, Next.js, and TypeScript**.

Experienced in translating complex product requirements and Figma designs into **reusable UI systems and scalable frontend architectures**. Strong background in **dashboard platforms, API-driven applications, responsive UI engineering, and performance optimization**.

Proven experience collaborating in **distributed international teams** across Europe and the Middle East, building reliable production applications and improving user workflows through intuitive interfaces.

Passionate about **clean code, accessibility, performance, and creating delightful user experiences** across devices and browsers.

CORE SKILLS

Frontend Development

React.js • Next.js • TypeScript • JavaScript (ES6+)
HTML5 • CSS3 • TailwindCSS • Responsive Design
Component-Driven Architecture • Modern UI Development

UI Engineering

Design Systems • Reusable Component Libraries
Dashboard Interfaces • Data Tables • Forms
State Management (Redux, Context API)
Routing and Client-Side Data Flow

API Integration

REST APIs • Authentication Flows
Client-Server Data Handling
API Performance Optimization

Performance & Quality

Frontend Performance Optimization
Core Web Vitals Optimization
Cross-Browser Compatibility
Testing with Jest and Vitest

Cloud & Infrastructure

AWS Basics • CI/CD Pipelines • Docker
Application Deployment Workflows

Tools & Collaboration

Git • GitHub • CI/CD
Agile Development • Remote Collaboration
Figma Collaboration • Code Reviews

PROFESSIONAL EXPERIENCE

SMART MS SA — Mauritania

Senior Software Engineer / Front-End Lead

10/2023 – Present

Design and develop scalable frontend systems powering internal operational platforms.

Key Achievements

- Developed **React-based operational dashboards** used to monitor and manage complex business workflows.
- Designed and implemented **reusable component systems** used across multiple internal applications.
- Integrated frontend interfaces with **REST APIs** enabling real-time operational data visualization.
- Optimized **React rendering performance and API data flows**, improving application responsiveness and user experience.
- Led **frontend architecture decisions** and established scalable UI patterns for internal platforms.
- Implemented modular component structures enabling faster feature development.
- Collaborated closely with product teams to transform manual processes into **efficient digital workflows**.

XpVision — Germany (Remote)

Front-End Developer (Part-Time)

09/2024 – 11/2024

Worked on SaaS products used by international clients, focusing on modern UI development.

Key Contributions

- Developed responsive **React-based user interfaces** for SaaS platforms.
- Translated product requirements and design specifications into **maintainable UI components**.
- Collaborated with backend engineers to integrate **REST APIs and optimize data flow**.
- Participated in **code reviews and frontend architecture discussions** within a distributed engineering team.

Moulhim — Saudi Arabia (Remote)

Front-End Developer (Part-Time)

06/2024 – 08/2024

Developed modern frontend interfaces for digital platforms serving international users.

Key Contributions

- Built responsive UI components using **React and modern JavaScript**.
- Improved UI performance and usability across mobile and desktop devices.
- Implemented **API integrations** for dynamic content rendering.
- Collaborated with stakeholders to refine product workflows and improve user experience.

Yata Medical — Mauritania

Full Stack Developer

05/2023 – 10/2023

Developed healthcare management tools and operational dashboards.

Key Contributions

- Built **data-driven dashboards using React** for scheduling and healthcare administration.
- Implemented **authentication flows and API integrations** for secure data access.
- Improved frontend data loading performance and user interactions.
- Contributed to backend development and **database query optimization**.

Promesse — Mauritania

Full Stack Developer (Internship)

02/2023 – 07/2023

Key Contributions

- Developed **React frontend modules and reusable UI components**.
- Implemented authentication systems and **role-based access control**.
- Built REST APIs and integrated frontend data workflows.
- Participated in collaborative product development within the engineering team.

SELECTED PROJECTS

Livi – Multi-Platform Mobility Ecosystem

Large-scale mobility platform composed of:

- 3 Mobile Applications
- 2 Web Platforms

Contributions

- Developed **React dashboards and operational management interfaces**.
- Implemented role-based workflows and real-time data handling.
- Designed scalable UI components supporting multiple applications.
- Focused on **performance optimization and efficient API communication**.

Impact

Improved operational visibility and coordination for mobility service management.

El Amana Optique – Inventory Management Platform

Built an interactive admin platform for stock and order management.

Key Features

- Data tables and inventory tracking dashboards
- Filtering, reporting, and operational insights
- Efficient UI workflows for business management

Impact

Digitized inventory management and improved operational efficiency.

AB Gift – Digital Gift Card Platform

Built a modern digital gift card purchasing platform.

Key Contributions

- Developed responsive **React-based frontend interfaces**.
- Implemented secure purchase and gifting workflows.
- Integrated payment APIs and backend services.

TECHNICAL SKILLS

Frontend

React.js • Next.js • TypeScript • JavaScript (ES6+)
HTML5 • CSS3 • TailwindCSS

State Management

Redux • Context API

Backend

Node.js • Spring Boot • Django REST Framework

Databases

PostgreSQL • MySQL • MongoDB

Infrastructure

Docker • CI/CD • AWS Basics

Testing

Jest • Vitest

EDUCATION

Master's Degree — Computer Systems (Informatique Système)

Faculté des Sciences et Techniques (FST) — Mauritania
2021 – 2023

Bachelor's Degree — Mathematics & Computer Science

Faculté des Sciences et Techniques (FST) — Mauritania
2018 – 2021

LANGUAGES

Arabic — Native

French — B2

English — B2 (Professional Working Proficiency)

PROFESSIONAL STRENGTHS

- Strong problem-solving and analytical thinking
- Effective collaboration in **remote international teams**
- Attention to UI/UX details and usability

- Ownership mindset and proactive communication
- Continuous learning and technology exploration
